*Target MSc: Sustainable Energy & Operations*

## PROFESSIONAL EXPERIENCE

---

Engineering Intern - Aker Solutions, Stavanger July 2023 - July 2024.  
Supported the design of a carbon capture and storage (CCS) module; optimized flow simulations in CFD (Computational Fluid Dynamics).  
Operations Intern - Equinor 2022.  
Analyzed maintenance schedules for offshore wind turbines, increasing uptime by 4.5% through predictive scheduling.

## EDUCATION

---

BEng in Mechanical Engineering, NTNU Trondheim 2019 - 2023.  
Specialized in Fluid Dynamics and Energy Storage.

## SKILLS

---

Technical: MATLAB, CFD (Ansys), AutoCAD, Python, Lean Six Sigma (Green Belt).

## PERSONAL INTERESTS

---

Deep-sea Diving, Sustainable Innovation Blogging, Ice Hockey.
